

Tenerdis

Tenerdis – Cleantech cluster in the Auvergne Rhone Alpes region

ICN member Tenerdis supports the energy transition from the French region of Auvergne Rhone Alpes. Tenerdis holds a strong expertise in following 7 fields: solar energy, biomass/biogas, wind energy, hydropower, smart energy grids and energy storage and energy efficiency.

Besides the advantage of the beautiful natural environment and a high quality of life in the region, Tenerdis enjoys a strong synergy between research & universities and companies together with a strong involvement of local authorities in new projects. This environment has naturally attracted international research facilities and multidisciplinary research team, as well as foreign owned companies to the region.

Major international events are hosted in the region, such as Pollutec 2018 in Lyon (November 27-30, 2018). Pollutec is an annual event that showcases all the latest technologies of the environment and energy industries and connects all relevant stakeholders to develop international opportunities. Another opportunity is provided by the EVS32 “A world of E-Motion” event in Lyon in May 19-22, 2019.

MAIN AREAS

BENEFITS

| | |
|---|---|
| <ul style="list-style-type: none"> • Energy – new energy legislation creates profound shifts across the industry • Construction – buildings as energy consumers and producers | <ul style="list-style-type: none"> • International research facilities and multidisciplinary research teams |
| <ul style="list-style-type: none"> • EnerNet – the convergence of the energy grid and the internet, the next energy revolution. | <ul style="list-style-type: none"> • Tech leading industries: cleantech, micro-nanotechnologies, IT & software, energy, medtech, chemistry, sustainable construction, etc. |
| <ul style="list-style-type: none"> • Industry – energy as a major challenge for the Factory of the Future | <ul style="list-style-type: none"> • Strong synergy between universities, research and companies • Strong involvement of the local authorities in new projects |

- Mobility – new forms of energy for carbon-free mobility
- Smart Cities – seeking solutions to cities' future challenges
- Attractive area with hundreds of foreign owned companies and tens of countries represented
- Major international events hosted in the region.

YES, I WANT A NEW STAMP ON MY ICN PASSPORT!

I'll use [Tenerdis](#) offices, attend their activities as a member and meet their key business contacts!

If you are interested in Tenerdis, explore partnering opportunities and like to engage with Tenerdis through the ICN Passport, please contact the ICN Secretariat for any further information.
